PROFESSIONAL SUMMARY

B.Tech Information Technology student with hands-on experience building full-stack web applications, applied computer vision systems, and statistical data pipelines. Proficient in **Python, Java (Spring Boot), React, TypeScript, FastAPI, and SQL** with demonstrated expertise in RESTful API engineering, relational database modeling, automated testing (Pytest), and containerized Docker deployments. Seeking an entry-level Software Development Engineer (SDE), Full-Stack, or AI/Data Engineering role.

TECHNICAL SKILLS

Languages:	Python, Java, TypeScript, JavaScript (ES6+), SQL, C
Frontend:	React.js, TypeScript, Vite, Tailwind CSS, Three.js (WebGL), HTML5, CSS3, Chart.js
Backend & APIs:	FastAPI, Spring Boot, Node.js, Express.js, RESTful APIs, JWT Authentication, Pydantic
Databases & ORM:	PostgreSQL, MySQL, Supabase, MongoDB, SQLAlchemy, Prisma ORM
AI/ML & Data:	OpenCV, YOLO, Scikit-Learn, Pandas, NumPy, SciPy, Matplotlib, Seaborn, PCA, K-Means Clustering
Tools & DevOps:	Docker, Docker Compose, Git, GitHub Actions CI/CD, AWS, Pytest, Postman, Vite, Maven

INTERNSHIP EXPERIENCE

RABTECH ACADEMY — Data Analytics & Business Intelligence Intern

Jun 2026 – Aug 2026

- Executed end-to-end data analytics and BI deliverables across 12,500+ commercial records (INR 1.62M revenue), building an automated Python data quality engine enforcing 15 SLA validation rules across 5 integrity dimensions.
- Conducted inferential statistical hypothesis tests (Welch's t-test, ANOVA, Tukey HSD) evaluating discount elasticity and profit margins to isolate linear revenue drivers ($r = 0.709$).
- Built an unsupervised ML customer segmentation pipeline utilizing PCA (5 components, 98.7% variance) and K-Means ($K=3$) to classify High-Ticket, Routine, and Discount-Driven shopper personas.
- Developed an interactive Streamlit BI dashboard featuring dynamic KPI scorecards, multi-dimensional drill-downs, automated ReportLab PDF reports, and executive ROI forecasting models.

KEY TECHNICAL PROJECTS

JeevaRaksha AI — AI Road Safety & Emergency Response Platform [\[GitHub\]](#) [\[Demo\]](#)

Python, FastAPI, OpenCV, React, PostgreSQL, Docker

- Architected a real-time accident detection ecosystem with kinematic multi-frame temporal verification ($IoU \geq 0.15$, deceleration shockwaves $< -18.0 \text{ m/s}^2$), achieving 94.2% false-alarm suppression and sub-millisecond inference.
- Integrated multi-modal Bayesian sensor fusion (optical video + OBD-II/IMU telemetry), automated Haversine trauma center routing with live ETAs, JWT auth, and Docker Compose CI/CD with 100% Pytest pass rate.

BhuRaksha AI — 3D Road Condition & Pothole Damage Intelligence [\[GitHub\]](#) [\[Demo\]](#)

React 18, TypeScript, Three.js, FastAPI, Leaflet, Docker

- Built an interactive 3D WebGL highway digital twin (Three.js/R3F) with defect markers, volumetric bitumen loss estimation (Liters), Leaflet GIS hazard heatmaps, and a 5-stage municipal repair Kanban workflow.
- Implemented a Haversine spatial duplicate clustering engine ($<25\text{m}$ radius) that merges redundant citizen complaints and dynamically escalates priority scores across 4 languages (EN, HI, MR, TE).

Annapurna Aahaar — Handcrafted Food E-Commerce Platform & PWA [\[GitHub\]](#) [\[Demo\]](#)

TypeScript, React 18, Vite, Tailwind CSS, Web Speech API

- Developed an omnichannel e-commerce PWA with 1-click WhatsApp order generation, automated itemized invoicing, dynamic coupon engine, and browser-native Web Speech API voice search.
- Configured service worker caching (sw.js) for offline capabilities and Schema.org JSON-LD structured data, achieving 100% Google Search Console verification.

Netflix Media Catalog Analytics Platform [\[GitHub\]](#)

Java, Spring Boot, React.js, MySQL, REST APIs, Chart.js

- Engineered a full-stack media analytics application with Spring Boot RESTful APIs and React to ingest, filter, and analyze multi-thousand record entertainment streaming datasets with interactive Chart.js visualizations.

EDUCATION

Anurag University — Bachelor of Technology in Information Technology (CGPA: 6.0)	Hyderabad, India 2023 – 2027
Sri Chaitanya Junior College — Higher Secondary Education (TSBIE) — 87.2%	Telangana, India 2021 – 2023
Vedam High School — Secondary School Certificate (SSC) — 100%	Telangana, India 2021

CERTIFICATIONS

- Deloitte** — Data Analytics Job Simulation (Forage)
 - Deloitte** — Cybersecurity Job Simulation (Forage)
 - Infosys** — Learning Python & Java for Beginners
- AWS** — SimuLearn: Cloud Practitioner
 - Cisco** — Data Analytics Essentials

LANGUAGES

English (Professional Working Proficiency) • Telugu (Native) • Hindi • Marathi
